

ELECTRICAL INDUSTRIAL DESIGNER

Hunt Electric is a national design build electrical contracting firm grounded in the simple, powerful concept of performing efficient, quality work. Our loyalty is to our clients and our communities in more than 40 states. We are continually seeking individuals who are passionate about the electrical design and construction industry who want to contribute to our company growth. If you are driven, love what you do and hold yourself to a standard of excellence, we want to hear from you!

ROLE AND RESPONSIBILITIES

Provides electrical design and Building Information Modeling coordination on a wide variety of projects. A high degree of accuracy and attention to detail is required. This role interacts with various departments within the company as well as with other disciplines outside of the company.

- Process customer's engineered schematic and cabling riser drawings and create conduit and cable tray layout drawings to be used in the field installation.
- Process customer's engineered schematic and cabling riser drawings and create cable pull schedules, cabling layouts and wire termination sheets to be used in field installation.
- Create electrical drawings for construction within Revit on a variety of projects under the direction of senior design members as well as project managers and general foremen.
- Create coordinated AutoCAD models specifically regarding the electrical installation with the assistance of field management.
- Create installation drawings from the 3D/BIM models.
- Coordinate finished product with external customers and industry professionals.

QUALIFICATIONS AND EDUCATION REQUIREMENTS

- High School Diploma or equivalent.
- Minimum two (2) year degree in electrical construction, electrical design for construction or similar.
- Excellent planning and organizational skills.
- Ability to work independently.
- Strong attention to detail and problem solving skills.
- Excellent time management skills.
- Strong verbal, written and interpersonal communication skills.
- Willingness to learn new ideas and concepts.
- Proficient with MS Office (Excel, Word, Outlook).
- Minimum 2 years related electrical design/modeling experience.

PREFERRED SKILLS

- Advanced experience working with Revit.
- Experience working with Navisworks or EasyPower.
- Experience working with Trimble.

- 3D/BIM modeling experience using Revit.

PHYSICAL REQUIREMENTS

- This job operates in a professional office environment. This role routinely uses standard office equipment such as computers, phones, filing cabinets, photocopiers and fax machines.
- Employees are frequently required to sit, and occasionally required to kneel, reach, stoop, crouch or crawl.
- This position requires the ability to lift files, open file cabinets, and bend or stand as necessary.
- This position may occasionally lift up to 10 pounds.

BENEFITS

Hunt offers a competitive total compensation and benefits package, which includes 100% employer paid health insurance, dental insurance, vision insurance, basic life insurance, paid vacation, sick and holiday time, 401(k) Profit Sharing Plan with an employer match and participation in the Employee Stock Ownership Plan.
